A black and white photograph of a modern building at night. The building has a prominent white corner structure with a large window. The sky is dark, and a large, bright moon is visible in the upper left corner. The building's interior lights are on, and some steps lead up to the entrance.

FOREWORD

We have attempted to bring an annual to you this year which reflects campus life and activities. The important and happy events of this past high school year are mirrored, we hope, in these pages.

This has been a momentous year for all of us. It registers accomplishment for high school students in general, and major achievement for graduating seniors in particular. This year has been outstanding from another aspect, however.

In this, the Geophysical Year, science has invaded all our lives with great effect. It has assumed such importance that we feel our futures are wedded with this fickle goddess.

We feel sure that science will forcefully dominate our futures, therefore we have voluntarily assigned her a place on these pages. We hope you concur with our choice.

CLASS OF

The Juniors are a lively bunch. They set a record for enthusiasm with the biggest turnout for cheerleader and pom pon girl tryouts in the history of Santa Cruz High. The class was well represented in athletics,

social affairs, and scholastic standing. These students have proven themselves to be a capable, energetic group. The out-going Seniors will be leaving their school in good hands.

CLASS OF

The Sophomores seem to be a promising group. They were off to a good start with a prize winning float for our Homecoming Parade. The class set an excellent

example by giving the remaining money in their treasury to the swimming pool fund. They must be planning to have some fun in it before they leave!

1960

CLASS OF

The Freshman class has had an active, successful year. They easily and enthusiastically adjusted themselves to their new position as part of our student body. They contributed their spirit and loyalty to all our rallies

and games in a manner the upperclassmen weren't always able to equal. This class has a brilliant future ahead of them. The students will make the best of it, as they have this past year.

Mr. Jordan.
I've given you a lot
of trouble in the past few
years. But it's meant an awful
lot to me learning to speak
a beautiful language. I have
really been proud of having
you for my teacher. I hope
you don't have other students
like me although you have
been very patient with my
little bursts of exuberance.
I hope your have many
good classes and I pray
God will bless you and
your family.
your student
Honna Ber

Mr Jordan,
your next years
will probably be
very quiet because
Tank, Bluff, and I
shall be gone. Harry
has third year Spanish
next year. It has
been fun even
though I don't
comprehend Spanish.
Lots of luck in
the year to follow.

Mr. Jordan.
I have really enjoyed Spanish
this year, & I feel as though
I have learned a lot. I'm
taking 3rd year, & I hope
I am in your class.
Dianne Keller

Mr Jordan —
To my favorite Spanish
teacher. I'm sorry I won't
be having you in summer
school this summer, but I'm
going to M.P.C., instead. Best
of luck next year
